

## INCIDENT MANAGEMENT SITUATION REPORT

SUNDAY, JULY 19, 1998 - 0900 MDT

NATIONAL PREPAREDNESS LEVEL III

### CURRENT SITUATION:

Large fire activity continued in the Great Basin, Northern Rockies and Northwest Areas. Demobilization from the Florida fires is progressing as containment objectives continue to be met. The National Interagency Coordination Center processed orders for crews, overhead, aircraft, engines, equipment and miscellaneous overhead. Very high and extreme fire indices were reported in Florida, Georgia, Texas, New Mexico, Arizona, Colorado, Utah, Nevada, Idaho, Wyoming, California and Washington.

### SOUTHERN AREA LARGE FIRES:

JACKSONVILLE II COMPLEX, Florida State - Nassau, Duval and Clay Counties. A Type II Incident Management Team (Carr) is assigned. Crews are concentrating on containing one fire within the complex.

FLAGLER/ST. JOHNS COMPLEX, Florida State - Flagler and St. Johns Counties. A Type I Incident Management Team (Loving) is assigned. Unified Command with Florida Division of Forestry (Votolina) is in effect. The potential for reburn remains high as mop-up continues in and around the urban interface.

SUWANNEE OAK COMPLEX, Florida State - Columbia, Union, Bradford and Baker Counties. Rehabilitation of the fireline was completed yesterday. The complex will transition to the Osceola National Forest tomorrow.

HONEY SCRUB COMPLEX, Okefenokee NWR. Operational responsibility for the incident was transferred to the Okefenokee NWR and the Georgia Forestry Commission yesterday. Infrared flights have located hot spots which were suppressed with a helicopter. Stephen C. Foster park will reopen on Monday.

#### WESTERN GREAT BASIN LARGE FIRES:

UNION COMPLEX, Ely District, BLM. A Type II Incident Management Team (Butler) is assigned. This fire is burning in grass and sage fifteen miles south of Caliente. Good progress was reported, although steep terrain and hot, dry conditions continue to pose problems. There are currently eight active fires in the complex, the most active are the Boyd and Rainbow fires. Fire behavior yesterday consisted of occasional torching and smoldering. Current threats are to cultural resources and grazing.

SAND, Carson District, BLM. This fire is located approximately twenty miles northeast of Doyle, CA. Fire behavior has been aberrant, with active burning being reported late last night. Control problems include high temperatures, low humidities and winds.
